CHECK & PROTECT

The Athesi Professional smartphones offer a high security access to its owner. The access to the powerful features of these smartphones can be done through the specific lateral key which integrates a fingerprint sensor. You need an easier way ? Activate the screen and the Face Access function unlocks your phone instantly. Protect your data !

The AP5801 is also able to check the air quality and detect your heart rate through a blood oxygen heart rate monitor. Be safe !

The SOS feature is able to help you in any kind of difficulty. It will optimize the battery consumption to be able to send a message every 10 minutes with your localisation for a very long time.

THERMAL SENSOR & DOUBLE CAMERAS

Of course rear and front cameras are a standard on the market but look at the advantage of the 2 rear cameras and the high results in the pictures quality.

You need to check the temperature of a room, electrical pieces, an animal, a human or whatelse ? take the advantage with the AP6301 and its FLIR sensor in addition of its 48Mpixels camera.

HIGH PERFORMANCE CPU

With the Athesi Professional smartphones, you have access to the high performance. AP5801 and AP6301 contain the HELIO P70 CPU with 6 Go RAM and 128Go ROM.

This is more than enough to use the most demanding software applications.

EXTREMELY LONG LIFE BATTERY

All Athesi Professional Smartphones support a very high capacity battery up to 6580 mAh. It gives up to 28 hours of calling or one month in stand by mode !

The smartphones internal battery support fast charge either by cable through the USB-C connector or by using wireless charger. The 10W wireless charging increase the charging efficiency by 30%

EXTREMELY RUGGED

Tested in all conditions and from -30°C to +60°C, the smartphones are able to support 1.5 m drops in rocky trips. The devices can withstand relentless pounding, pressure and force. On the job site, in the field or in the search of adventure, these devices are extremely rugged and reliable mobiles solution.

MIL-STD-810G approved.

WATERPROOF

All Athesi Professional Smartphones are waterproof & dustproof. With their IP68 they support 1.5m deep water. You want more ? The AP5701 & AP6301 are aligned with IP69k and can support high pressure wash (100 bar) at high temperature (80°C).

In any case, no worries about water, humidity, sand, dust or mud.
